

Why use pr Clean R?

- pr Clean R removes heavy soiling, especially greasy/ fatty and oily contaminants without using harmful solvents.
- pr Clean R dissolves and emulsifies dirt by means of surfactants.
- pr Clean R does not use lacquer thinners or organic solvents.
- pr Clean R contains moisturizing agents that nourish the skin.

What are the benefits

- Skin health is not jeopardized during the removal of surface level contaminants.
- Dirt is removed from the surface of the skin without effecting the structure of the skin.
- Waste water does not need to be diluted and the skin will not be damaged through over exposure to harsh cleaners.
- The moisturizer helps maintain the skin and promote its effectiveness as a barrier.

Impact of pr Clean R

- pr Clean R removes dirt and other contaminants from the skin without compromising the integrity of the skin.
- By cleaning without the use of solvents or thinners waste water is reduced because less water is required to fully rinse the skin.
- pr Clean provides the right amount of cleanser for the contaminant.

Effect of pr Clean R

- The skin feels healthy and well maintained.
- Employees will have an improved sense of health and well being.
- Skin will not feel dry, cracked, or irritated after use.
